Details of the pallet control software

2ic Pallets software is the leading pallet tracking and pallet reconciliation software in Australia. CHEP, Loscam, IPP Logipal, LPR and CEVA Logistics file formats are supported. 2ic Pallets software can help control pallet costs, report on pallet losses and aids with pallet recovery.

2ic Pallets provides docket printing, con note tracing, redeeming of exchanges, exporting and importing of CHEP, Loscam, IPP Logipal, LPR, CEVA Logistics and CPC (Canadian Pallet Council) file formats and bill reconciliation.

2ic Pallets has distributors in Australia, Canada and the United Kingdom (UK) supporting customers in Australia, New Zealand, England, Ireland, Canada and the United States (US).

Culina Logistics Optimises Pallet Management with 2ic Software
Friday, 28 August 2009

When award-winning service provider Culina Logistics Limited recently looked to simplify its pallet management function, it selected best of breed 2ic Software to streamline operations and help reduce pallet related costs. Such an undertaking is no small feat for a major company such as Culina Logistics, operating from nine strategically located ambient and chilled distribution centres across the UK. An additional layer of complexity, Culina uses both CHEP and IPP Logipal as pallet suppliers.
